Architectural Lighting magazine announces the **SIXTH ANNUAL AIL LIGHT & ARCHITECTURE DESIGN AWARDS** honoring outstanding and innovative projects in the field of architectural lighting design.

The A|L DESIGN AWARDS recognize and reward excellent lighting design within the specific criteria relevant to each category (Residential, Interior, and Exterior). To acknowledge issues of notable importance in today's practice of lighting design and techniques particular to lighting, A|L also presents a series of awards that achieve the Best Use of Color; the Best Incorporation of Daylight; and the Best Lighting Design on a Budget—three issues that are increasingly important considerations for designers. Winning projects are published in the July/August 2009 issues and featured on archlighting.com.

Design professionals practicing worldwide may enter one or more projects in multiple categories. Submissions are encouraged from all design professionals—architects, lighting designers, interior architects, interior designers, and landscape architects. Projects must have been completed after July 2007.
